Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.

Licensed Practical Nurses (2012)	1,507	DNA	84.0%	DNA

Notes:
Only health care employees renewing their license in 2012-2013 were surveyed.
The "Estimated Number" and "Percent of Workforce Intending to Remain in Profession for 6 or More Years" used to compute each "% Change from Previous Survey Year" are adjusted based on the response rates for the previous and current survey results. The survey results are available every two years. Numbers and percentages pertain to county of employment.
Percentages based on less than six responses are considered statistically unreliable and are not displayed (ND).
Registered Nurses and Licensed Practical Nurses are not comparable to previous survey period, so some data is not available (DNA).
Franklin and Fulton County data are combined due to survey issues for the current period.
